

Half Moon's Senior Youth Theatre present....

'PLACE'

4TH AND 5TH JULY 2012

A devised ensemble performance piece that reveals the extraordinary nature of everyday places. Using theatre, dance and sound, *Place* explores how young people respond to the world around them. This performance forms part of *Challenging Place*, a collaborative research project between Half Moon and the Central School of Speech and Drama, exploring how young people think about place, both in real life and through digital media.
